**REVISED 9/8/2015**  
**Scope of Work**  
**Kitchen Equipment**  
**Williamson County Public Safety Facility 911 and Emergency Operations Center**

Williamson County Government is accepting bids for kitchen equipment for the Public Safety Facility 911 and Emergency Operations Center.

Bidders shall be licensed Food Service Equipment Contractors as required by applicable laws of the State of Tennessee.

Installation must take place during the first 2 weeks of December 2015.

The award contractor will be required to deliver, uncrate, set in place and hook up all utilities for the new equipment. The awarded contractor will remove all crating from the premises.

Our intention for this project is to limit brands to the specific products in the bid document and not more than (2) two substitute brands. Williamson County will consider substitute brands that are equal or better than the specified brands detailed in the bid document. Bidders must submit to Williamson County Purchasing Agent by or before September 14, 2015, 2:00 p.m. the products they wish to use as a substitute brand. If substitutes are approved, then an addendum will be issued by September 16, 2015, 4:30 p.m. The decision of Williamson County as to whether an alternate is in fact "equal or better" shall be final.

Dimensions included in the bid documents are critical as the building is already under construction.

Awarded contractor will be required to make a site visit to verify dimensions before sign off on approval drawing. The awarded contractor will also need to meet with the construction manager to verify connection types for appliances.

Williamson County reserves the right to award this bid to multiple bidders on a "line by line" basis or on an "all or none" basis. Whichever is deemed to be in the best interest of Williamson County Government.

Bids must be valid a minimum of 60 days. Awarded prices will be in effect for 12 months from date of award for possible future (additional) purchases.
